However, the risks are further exacerbated by possible actions, including operational errors, of the third party.

7. RISKS ASSUMED BY THE CLIENT

7.1. The Client acknowledges any and all risks associated with any of the Transactions and services to which these Regulations shall apply and which the Client intends to request from the Company taking into account its relevant knowledge and experience.

7.2. For each Client the Company shall perform the assessment of suitability, where necessary, or appropriateness of the Services provided by the Company to the Client. The Company shall assess the Client's experience and knowledge needed to understand relevant risks with regard to specific Services that the Company shall provide to the Client and with regard to Securities the Client intends to deal with and Transactions to be executed by the Company on Client's behalf.

7.3. To assess suitability or appropriateness of the Company's Services to the Client, the Company shall request from the Client, and the Client undertakes to provide the Company with, information in the scope and degree corresponding to the distinct features of the Client, nature and amount of the Company's Services the Client intends to use, and also the types of transactions and operations the Client intends to execute with the Company's assistance, taking into account their complexity and accompanying risks, and the following information:

- The types of services, transactions and financial instruments the Client has experience and knowledge in
- The nature, volume and frequency of the Client's transactions in financial instruments and the period during which these were carried out
- The level of Client's education, financial position, current or the relevant former profession.

The Company reserves the right to request from the Client any additional information both before signing of the AGREEMENT in the form of Annex 1 to these Regulations by the Client and during the term of the ensuing contractual relationship.

7.4. The Company has the right to rely on the information provided by the Client to the Company unless the Company is aware or ought to be aware that such information is manifestly out of date and/or inaccurate and/or incomplete.

7.5. If the Client fails to provide information about its knowledge and/or experience (or provides incomplete information), the Company hereby notifies the Client that such omission makes it impossible to assess how an investment service and/or a financial instrument is appropriate for the Client. In such case the Company shall have the right not to provide the Client with relevant Service and/or not to execute Transactions on Client's behalf with a relevant financial instrument before it receives the required information from the Client in full.

7.6. Complex financial instruments are derivative or compound securities (products) to which special risks apply such as options, structured notes, etc. The Client is especially required to provide to the Company information regarding its knowledge and experience in these products.

Although complex financial instruments can be utilized for management of investment risk, some of these products are unsuitable for many investors. Different instruments involve different levels of exposure to risk and in deciding whether to trade in such instruments the Client should first familiarize itself with risks associated with such investments (<http://veles-int.com/en/Services/Regulations>) and also consult a financial advisor before making investments in complex instruments.

The Company's Risk Disclosure Statement in Securities Trading (<http://veles-int.com/en/Services/Regulations>) cannot disclose all the risks and other significant aspects of complex instruments. The Client should not deal in such products unless it understands their nature and the extent of its exposure to risk. The Client should also be satisfied that the product is suitable for it in the light of its current circumstances including its financial position, i.e. income, expense and savings, prospective expenditures and plans.

Undertaking dealing with complex financial instruments and acceding to these Regulations the Client hereby declares that it understands the risks involved in dealing in complex financial instruments and has sufficient knowledge about such products and is able to assess their merits and suitability and appropriateness in relation to the Client's investment needs and abilities.

7.7. The Company may execute the Client's express Instructions related to certain non-complex Securities without determining their appropriateness if such Securities meet the following conditions:

- They are shares admitted to trading on a regulated market in the EU or on an equivalent third country market as defined by the relevant law or
- They are money market instruments, bonds or other forms of securitized debt (excluding those bonds or securitized debt that embed a derivative), UCITS and other non-complex financial instruments which satisfy the following criteria:
 - they do not fall within the relevant law definition of 'transferable securities' (securities negotiable on the capital markets: equity shares, bonds and derivatives thereon)
 - there are frequent opportunities to dispose of, redeem, or otherwise realize those instruments at prices that are publicly available to market participants and that are either market prices or prices made available, or validated, by valuation systems independent of the issuer
 - they do not involve any actual or potential liability for the Client that exceeds the cost of acquiring the instrument
 - adequately comprehensive information on their characteristics is publicly available and is likely to be readily understood so as

to enable the average retail client to make an informed judgment as to whether to enter into a transaction in that instrument.

7.8. The Client shall be solely responsible for assessment of risks involved in its Transactions. The Company strongly advises the Client to engage its own independent consultant(s), both legal and financial, in order to stay informed of the risks associated with any Client's Transactions in addition to information provided by the Company in these Regulations.

No documentation or information forwarded by the Company to the Client under these Regulations should be construed as constituting investment advice.

7.9. The Company shall make no representations or warranties in relation to the expediency, including suitability and profitability, of investment in Securities (whether in writing or verbally), as well as in connection with any Securities or with investments in general, except for the general description of the nature and risks associated with financial instruments (<http://veles-int.com/en/Services/Regulations>).

7.10. The Client confirms that before entering into the AGREEMENT as per Annex 1 to these Regulations it has carefully studied the brief description of primary risks related to investments in financial instruments, on both international financial regulated markets and over-the-counter market, including the description of the nature of financial instruments and risks related to specific financial instruments (<http://veles-int.com/en/Services/Regulations>), and also confirms that this information is understandable to the Client and that it is able on the basis of this information to independently assess the risks and rewards related to investments in financial instruments. By signing the AGREEMENT as per Annex 1 to these Regulations the Client shall consent to accept all of the risks related to financial instruments it intends to deal with or invest in.

- (d) Forward interest-rate agreements (FRAs);
- (e) Interest-rate, currency and equity swaps.

3. COVERED CLIENTS

The ICF covers the clients of CIFs except those, who are included in the following categories of investors:

1. The following categories of institutional and professional investors:

6. 4. Preconditions for the initiation of the compensation payment procedure by the Fund

The Fund initiates the compensation payment procedure when at least one of the following prerequisites is fulfilled:

- (a) The Cyprus Securities and Exchange Commission has determined that CIF is for the time being unable to meet its obligations arising from its investors-customers' claims, in connection with the covered services it has provided, as long as such inability is directly related to the CIF's financial position, which has no realistic prospect of improvement in the near future, or
- (b) Court, based on grounds directly related to the financial position of a CIF, has made a ruling which has the effect of suspending the investors-customers' ability to lodge claims against the CIF.

Upon issuance of a decision by the Cyprus Securities and Exchange Commission or by the Court in accordance with paragraph (a) or (b) above respectively, on the commencement of the compensation payment procedure, the Fund publishes in at least three national newspapers an invitation to the covered customers to make their claims against CIF arising from covered services, designating the procedure for the submission of the relevant applications, the deadline for their submission and their content.

5. COMPENSATION AMOUNT - FORMALITIES

The amount of compensation payable to each covered customer is calculated in accordance with the legal and contractual terms governing the relation of the covered customer with CIF, subject to the rules of set-off applied for the calculation of the claims between the covered customer and CIF. The calculation of the payable compensation derives from the sum of total established claims of the covered customer against CIF, arising from all covered services provided by CIF and regardless of the number of accounts of which the customer is a beneficiary, the currency and place of

provision of these services.

If the amount of the claim determined exceeds the amount corresponding to Euro 20.000 (twenty thousand Euros), the claimant receives as compensation the lump sum in Euros of the amount of Euro 20.000 (twenty thousand Euros).

In case of the investment firm providing services to its clients through a branch situated in a third country, the amount of the maximum compensation payable to clients comes up to the lump sum paid by any investor compensation scheme in operation in the third country, without however this amount exceeding the amount of Euro 20.000 (twenty thousand Euros) per client.

If in the third country, in the case described above, an investor compensation scheme is not in operation, the maximum amount of payable compensation comes up to Euro 3.400 (three thousand four hundred Euros) per client.

Upon completion of the valuation, the Fund:

- (a) issues minutes listing the customers of CIF who are entitled to compensation, along with the amount of money each one of them is entitled to receive and communicates it to the Cyprus Securities and Exchange Commission and CIF within five working days from its issue and
- (b) communicates to each affected customer its finding no later than fifteen days from the issue of the minutes, determining the total compensation amount this customer is entitled to receive.

The claimant, to whom the Fund communicates the total compensation amount to which he is entitled, in case he disagrees with the Fund's decision, has the right within ten days from the communication of the decision to appeal to the Cyprus Securities and Exchange Commission, justifying sufficiently his alleged claim.

The Fund is obliged to pay to each covered customer (claimant) the compensation within three months from sending to the Cyprus Securities and Exchange Commission the minutes with the compensation beneficiaries.

Professional client is a client who possesses the experience, knowledge and expertise to make its own investment decisions and properly assess the risks that it incurs. In order to be considered a professional client, the client must comply with the following criteria:

Section I: Categories of clients who are considered to be professionals

The following should all be regarded as professionals in all investment services and activities for the purposes of the Directive.

(1) Entities, which are required to be authorised or regulated to operate in the financial markets. The list below should be understood as including all authorised entities carrying out the characteristic activities of the entities mentioned: entities authorised by a Member State under a Directive, entities authorised or regulated by a Member State without reference to a Directive, and entities authorised or regulated by a non-Member State:

- (a) Credit institutions
- (b) Investment firms
- (c) Other authorised or regulated financial institutions
- (d) Insurance companies
- (e) Collective investment schemes and management companies of such schemes
- (f) Pension funds and management companies of such funds
- (g) Commodity and commodity derivatives dealers
- (h) Locals
- (i) Other institutional investors

(2) Large undertakings meeting two of the following size requirements on a company basis:

- balance sheet total: EUR 20,000,000,
- net turnover: EUR 40,000,000,
- own funds: EUR 2,000,000.

(3) National and regional governments, public bodies that manage public debt, Central Banks, international and supranational institutions such as the World Bank, the IMF, the ECB, the EIB and other similar international organisations.

(4) Other institutional investors whose main activity is to invest in financial instruments, including entities dedicated to the securitization of assets or other financing transactions.

The entities mentioned above are considered to be professionals. They must however be allowed to request nonprofessional treatment and investment firms may agree to provide them with a higher level of protection. Where the client of an investment firm is an undertaking referred to above, the investment firm must inform it prior to any provision of services that, on the basis of the information available to the firm, the client is deemed to be a professional client, and will be treated as such unless the firm and the client agree otherwise. The firm must also inform the customer that he can request a variation of the terms of the agreement in order to secure a higher degree of protection.

It is the responsibility of the client, considered to be a professional client, to ask for a higher level of protection when it deems it is unable to properly assess or manage the risks involved.

This higher level of protection will be provided when a client who is considered to be a professional enters into a written agreement with the investment firm to the effect that it shall not be treated as a professional for the purposes of the applicable conduct of business regime. Such agreement should specify whether this applies to one or more particular services or transactions, or to one or more types of product or transaction.

Section II: Clients who may be treated as professionals on request

1. Identification criteria

Clients other than those mentioned in section I, including public sector bodies and private individual investors, may also be allowed to waive some of the protections afforded by the conduct of business rules.

The Company is allowed to treat any of the above clients as professionals provided the relevant criteria and procedure mentioned below are fulfilled. These clients should not, however, be presumed to possess market knowledge and experience comparable to that of the categories listed in section I.

Any such waiver of the protection afforded by the standard conduct of business regime shall be considered valid only if an adequate assessment of the expertise, experience and knowledge of the client, undertaken by the investment firm, gives reasonable assurance, in light of the nature of the transactions or services envisaged, that the client is capable of making his own investment decisions and understanding the risks involved.

The fitness test applied to managers and directors of entities licensed under Directives in the financial field could be regarded as an example of the assessment of expertise and knowledge. In the case of small entities, the person subject to the above assessment should be the person authorised to carry out transactions on behalf of the entity.

In the course of the above assessment, as a minimum, two of the following criteria should be satisfied:

- the client has carried out transactions, in significant size, on the relevant market at an average frequency of 10 per quarter over the previous four quarters,
- the size of the client's financial instrument portfolio, defined as including cash deposits and financial instruments exceeds EUR 500,000
- the client works or has worked in the financial sector for at least one year in a professional position, which requires knowledge of the transactions or services envisaged.

2. Procedure

The clients defined above may waive the benefit of the detailed rules of conduct only where the following procedure is followed:

- they must state in writing to the Company that they wish to be treated as a professional client, either generally or in respect of a particular investment service or transaction, or type of transaction or product,
- the Company must give them a clear written warning of the protections and investor compensation rights they may lose,
- they must state in writing, in a separate document from the Agreement, that they are aware of the consequences of losing such protections.

Before deciding to accept any request for waiver, the Company must take all reasonable steps to ensure that the client requesting to be treated as a professional client meets the relevant requirements stated in Section II.1 above.

However, if clients have already been categorised as professionals under parameters and procedures similar to those above, it is not intended that their relationships with the Company should be affected by any new rules adopted pursuant here from.

Professional clients are responsible for keeping the firm informed about any change, which could affect their current categorisation. Should the Company become aware however that the client no longer fulfils the initial conditions, which made him eligible for a professional treatment; the investment firm must take appropriate action.
